Health & Safety

Sport Fishing can be a vigorous activity. Like all athletic and physical activities, a moderate level of health and fitness is necessary. Please inform the Captain prior to the trip if any persons in your fishing party have any serious health issues. Fishing trips can be tailored to people with health issues or disabilities with prior notice. Otherwise, the trip will be a 'Full-On' attempt to help you catch your Trophy Fish!

While Fishing is always fun, it is also a serious pursuit. You could miss the fish of a lifetime. The following **Rules** are in place to ensure that your fishing trip is safe and pleasurable:

- **ZERO** Tolerance for illegal drugs. Anyone possessing or intending to use illegal drugs on the **MAC-ATAC** will be returned to port immediately and will be subject to immediate arrest. (No Exceptions).
- **NO FIREARMS** will be allowed on board, unless in the possession of a Law Enforcement Officer.
- **NO HARD ALCOHOL**. A small amount of Beer or Wine are OK although they must only be used in moderation. If a customer shows up at the dock intoxicated, that person will not be allowed to go on the charter -- **period...** no exceptions.

All customers are responsible for the property of MAC-ATAC Sportfishing.

If catching fish: especially Striped Bass, Bluefish and offshore species is what you want, then this is the place to call and book your next fishing trip
